Probability Theory
and Related Fields

Continuation of
Zeitschrift für Wahrscheinlichkeitstheorie

Volume 113 1999

Managing Editor

E. Bolthausen — Editorial Office of PTRF, Institute of Applied Mathematics, University of Zürich, Winterthurerstrasse 190, CH-8057 Zürich, Switzerland

Honorary Editors

K.L. Chung, Stanford
K. Krickeberg, Paris
L. Schmetterer, Wien

Editorial Board

M.T. Barlow
Department of Mathematics
University of British Columbia
Vancouver, B.C.

F. Papangelou, Manchester
E. Perkins, Vancouver

Springer

"**Probability Theory and Related Fields**" was founded in 1962. The original title was "**Zeitschrift für Wahrscheinlichkeitstheorie und verwandte Gebiete.**" As of Volume 51, 1980, the subtitle *Probability Theory and Stochastics* was added. Beginning with Volume 71, 1986, the main title was adapted into English.
The first Managing Editor was L. Schmetterer, who was succeeded by K. Krickeberg in 1971, by H. Rost in 1985, O. Kallenberg in 1991 and by E. Bolthausen in 1994.

Copyright
Submission of a manuscript implies: that the work described has not been published before (except in the form of an abstract or as part of a published lecture, review, or thesis); that it is not under consideration for publication elsewhere; that its publication has been approved by all coauthors, if any, as well as by the responsible authorities at the institute where the work has been carried out; that, if and when the manuscript is accepted for publication, the authors agree to automatic transfer of the copyright to the publisher and that the manuscript will not be published elsewhere in any language without the consent of the copyright holders.

All articles published in this journal are protected by copyright, which covers the exclusive rights to reproduce and distribute the article (e.g., as offprints), all translation rights as well as the rights to publish the article in any electronic form. No material published in this journal may be reproduced photographically or stored on microfilm, in electronic data bases, video disks, etc., without first obtaining written permission from the publisher.

An author may make an article published by Springer-Verlag available on a personal homepage provided the source of the published article is cited and Springer-Verlag is mentioned as copyright holder. Authors are requested to create a link to the published article in LINK, Springer's Internet service. The link must be accompanied by the following text: The original publication is available in LINK at http://link.springer.de. Please use the appropriate URL and/or DOI for the article in LINK. Articles disseminated via LINK are indexed, abstracted and referenced by many abstracting and information services, bibliographic networks, subscription agencies, library networks, and consortia.

While the advice and information in this journal is believed to be true and accurate at the date of its going to press, neither the authors, the editors, nor the publisher can accept any legal responsibility for any errors or omissions that may be made. The publisher makes no warranty, express or implied, with respect to the material contained herein.

Special regulations for photocopies in the USA. Photocopies may be made for personal or in-house use beyond the limitations stipulated under Section 107 or 108 of U.S. Copyright Law, provided a fee is paid. All fees should be paid to the Copyright Clearance Center, Inc., 21 Congress Street, Salem, MA 01970, USA, stating the ISSN 0044-3719, the volume, and the first and last page numbers of each article copied. The copyright owner's consent does not include copying for general distribution, promotion, new works, or resale. In these cases, specific written permission must first be obtained from the publisher.

The Canada Institute for Scientific and Technical Information (CISTI) provides a comprehensive, world-wide document delivery service for all Springer-Verlag journals. For more information, or to place an order for a copyright-cleared Springer-Verlag document, please contact Client Assistant, Document Delivery, Canada Institute for Scientific and Technical Information, Ottawa K1A 0S2, Canada (Tel: 6 13-9 93-92 51; Fax: 6 13-9 52-82 43; e-mail: cisti.docdel@nrc.ca).

Contents of Volume 113 (1999)

Barral J: Moments, continuité, et analyse multifractale des martingales de Mandelbrot 535
Barron A, Birgé L, Massart P: Risk bounds for model selection via penalization 301
Birgé L → Barron A 301

Cerrai S: Smoothing properties of transition semigroups relative to SDEs with values in Banach spaces 85
Chaumont L, Doney RA: Pathwise uniqueness for perturbed versions of Brownian motion and reflected Brownian motion 519
Choulli T, Stricker C, Krawczyk L: On Fefferman and Burkholder–Davis–Gundy inequalities for $\mathscr{E}$-martingales 571
Chow P-L, Ibragimov IA, Khasminskii RZ: Statistical approach to some ill-posed problems for linear partial differential equations 421

Davis B: Brownian motion and random walk perturbed at extrema 501
Doney RA → Chaumont L 519

Efromovich S: On rate and sharp optimal estimation 415

Häggström O, Peres Y: Monotonicity of uniqueness for percolation on Cayley graphs: all infinite clusters are born simultaneously 273
Hiwatashi O, Nagisa M, Yoshida H: The characterizations of a semicircle law by the certain freeness in a C^*-probability space 115

Ibragimov IA → Chow P-L 421

Khasminskii RZ → Chow P-L 421
Khasminskii RZ, Krylov N, Moshchuk N: On the estimation of parameters for linear stochastic differential equations 443
Krawczyk L → Choulli T 571
Krylov N → Khasminskii RZ 443

Lepski O, Nemirovski A, Spokoiny V: On estimation of the L_r norm of a regression function 221

Ma J, Yong J: On linear, degenerate backward stochastic partial differential equations 135
Massart P → Barron A 301
Mazza C: Gauge symmetries and percolation in $\pm J$ Ising spin glasses 171
Moshchuk N → Khasminskii RZ 443

Nagisa M → Hiwatashi O 115
Nemirovski A → Lepski O 221

Peng S: Monotonic limit theorem of BSDE and nonlinear decomposition theorem of Doob–Meyer's type 473
Peres Y → Häggström O 273
Pisztora A, Povel T, Zeitouni O: Precise large deviation estimates for a one-dimensional random walk in a random environment 191
Povel T → Pisztora A 191

Quastel J, Rezakhanlou F, Varadhan SRS: Large deviations for the symmetric simple exclusion process in dimensions $d \geq 3$ 1

Rezakhanlou F → Quastel J 1

Schonmann RH: Stability of infinite clusters in supercritical percolation 287
Spokoiny V → Lepski O 221
Stricker C → Choulli T 571

Varadhan SRS → Quastel J 1

Wentzell AD: Asymptotic expansions in limit theorems for stochastic processes. II 255
Wu Y, Zen MM: A strongly consistent information criterion for linear model selection based on M-estimation 599

Yong J → Ma J 135
Yoshida H → Hiwatashi O 115

Zeitouni O → Pisztora A 191
Zen MM → Wu Y 599

Comprehensively covered by *Zentralblatt für Mathematik, Mathematical Reviews* and *Current Contents*
